SUMMARY

Information Technology student with hands-on experience in full-stack web development using Laravel and MySQL. Skilled in designing normalized relational databases, implementing role-based authentication, and developing secure, data-driven web applications following MVC architecture. Demonstrates strong analytical thinking, attention to detail, and problem-solving abilities. Seeking an internship in IT or software development to apply technical expertise in a real-world environment and contribute to impactful digital solutions.

EDUCATION

Diploma in Information Technology July 2023 - Present
Universiti Kuala Lumpur Malaysian Institute of Information Technology

- Current CGPA: 3.69

WORK EXPERIENCE

Part-Time Barista | KAVACOFF, Southville May 2023 - July 2023

- Delivered professional customer service by handling user inquiries and resolving issues efficiently.
- Managed operational workflows and transaction processing while multitasking in a fast-paced environment.
- Strengthened problem-solving, time management, and attention to detail.

CO-CURRICULAR & INVOLVEMENT

Member, University Dance Club May 2024

- Collaborated with team members to choreograph and perform in university and community events.
- Demonstrated discipline and commitment through regular rehearsals and performances.
- Developed strong time management skills by balancing academic responsibilities with training schedules.

Volunteer / Participant for Scavenger Hunt March 2024

- Participated in team-based challenges requiring strategic thinking, coordination, and time management.
- Collaborated with team members to solve tasks efficiently under time constraints.
- Enhanced communication and problem-solving skills in a competitive, fast-paced environment.

Event Operations Project – Go Media Scavenger Hunt March 2024

- Served as checkpoint crew to manage participant flow and provide clear instructions.
- Strengthened teamwork, communication, adaptability, and problem-solving skills.

Entrepreneurship Project – Technofest Oct 2023

- Managed product sales and digital operations for a university entrepreneurship project.
- Collaborated with team members to manage booth operations and customer interactions.
- Developed practical skills in responsibility, teamwork, and digital process management.

PROJECT

The Gardening and Plant E-Commerce Management System (FYP)

GitHub: <https://github.com/aelnamin/FYP-Plant>

- Developed a full-stack e-commerce management system using Laravel (MVC architecture) and MySQL.
- Designed and implemented a normalized relational database schema with optimized SQL queries to ensure data integrity and performance.
- Built role-based authentication and authorization for Admin, Nursery Owner, Customer and Guest using Laravel middleware.
- Implemented secure order processing workflow including cart management, automated inventory updates, and transaction validation.
- Applied server-side validation and structured error handling to improve system reliability and prevent invalid data submission.
- Managed version control using Git and GitHub throughout development lifecycle.

TECHNICAL SKILLS

- **Programming Language:** PHP, HTML, CSS, JavaScript
- **Framework:** Laravel (MVC Architecture, Routing, Middleware, Blade Templating)
- **Database & Data Management:** MySQL (ERD Design, Normalization, Complex SQL Queries, Relational Schema Design)
- **Development Tools:** Git, GitHub, XAMPP, phpMyAdmin, Visual Studio Code
- **Web Development:** CRUD Operations, Authentication & Authorization, Form Validation, Session Management, Error Handling
- **UI/UX:** Wireframing, User Interface Design Principles, Responsive Layout Structuring
- **Other Tools:** Microsoft Excel, Word, PowerPoint
- **Languages:** Bahasa Melayu (Native), English (Intermediate), Korean (Basic)

ACHIEVEMENT

- Dean's List – Awarded for 6 consecutive semesters; achieved a highest GPA of 3.83, reflecting consistent academic excellence.
